Intro:

| Bm | A | G | G |
| Bm | D | G | G ||

Lord you made us in your image

The flower and crown of creation

Lord you breathed in us the breath of life

In communion we walked with You

Infected with sin Lord we left your embrace

You sent your Son to die in our place

The veil between heaven and earth was made thin

In his resurrection our new life begins

You make all things new (4x)

You use us to change all the wrong things to right

Your longing for justice will be satisfied

When heaven meets earth all of life is made new

Lord may our lives bring glory to you
